

Core research priorities

- HIV/AIDS
- Tuberculosis
- Crime, Violence & Injury
- Health Systems, Policy & Implementation
- African Health Indigenous Knowledge Systems & Drug Discovery & Development
- Nutrition
- Women, Maternal & Child Health
- Malaria
- Cancer
- Cardiovascular and Metabolic Disease
- Mental Health & Functional Disorders
- Racial Disparities in Health
- Ethics in Health Research
- Research Translation
- Genomics, Proteomics and Computational Biology
- (Health) Biotechnology
- Environmental and Occupational Health Research
